

STAR EDUCATION

STUDENT OUTREACH ACTIVITIES OF LIVE ON STAGE, INC.

We believe that the youth in our audiences are our future concertgoers and performers. To that end, we encourage our artists to offer educational programming that supplements and enhances the concert performance. Our Star Education Program offers our artists the opportunity to present either a 45-minute Master Class or 45-minute Matinee. These programs are specifically designed to spark interest and enthusiasm in the performing arts and to introduce "world class" artists to students and local communities on a personal level. A portion of the proceeds from each Star Education performance is dedicated to provide scholarships to deserving students from Live On Stage communities.
